

NEW CONSTRUCTION PROJECTS

Starting immediately, TTSC is beginning some exciting new construction projects! The TTSC's Board of Directors has approved multiple upgrades to the TTSC grounds to enhance our customer experience.

- 2 Additional indoor wireless access points in the Dining Area, and the Levitz Lounge.
- Fiber Optic cabling to all 6 existing outdoor access points plus the addition of 6 more outdoor access points.
- New walk in cooler to be added to the east side of the club house.
- Ammo Warehouse extension on east side of ammo warehouse. This will allow the club to sell shells directly out of the ammo warehouse during large shoots relieving the lines at the cashier windows.
- Upgrades to multiple ramadas along the shooting line. We are raising and replacing the roofs of 3 ramadas to give our shooters better shade from the Arizona sun.

Construction on all projects should be completed before the 2017 Spring Grand American trap shoot in February.

As work proceeds, more information for Club patrons will be provided!
